SECTION 103 A NON-CRIMINAL DISPOSITION OF VIOLATIONS OF ANY BY-LAW
(Amended STM 8/28/91 ART. 3)

Pursuant to the provisions of Mass. Gen. Laws, Chapter 40, Section 21D, the Town hereby adopts the following procedure for the non-criminal disposition of violations of any by-law adopted by the Town or any rules or regulation of any board, commission or department which contains therein a specific financial penalty. A copy of any such schedule of financial penalties to which this by-law applies shall be retained on file with the Town Clerk.

The Board of Selectmen shall file with the Town Clerk a list of the Town's enforcing persons who shall be entitled to issue tickets under this by-law. Any person taking cognizance of a violation of a specific ordinance, by-law, rule or regulation which he is empowered to enforce, hereinafter referred to as the enforcing person, as an alternative to initiating criminal proceedings may give to the offender, a written notice to appear before the clerk of the Palmer District Court at any time during office hours, not later than twenty-one days after the date of such notice. Such notice shall be in triplicate and shall contain the name and address, if known, of the offender, the specific offense charged, and the time and place for his required appearance. Such notice shall be signed by the enforcing person, and shall be signed by the offender whenever practicable in acknowledgment that such notice has been received.

The enforcing person shall, if possible, deliver to the offender a copy of said notice at the time and place of the violation. If it is not possible to deliver a copy of said notice to the offender at the time and place of the violation, said copy shall be mailed or delivered by the enforcing person, or by his commanding officer or the head of his department or by any person authorized by such commanding officer, department or head to the offender's last known address, within fifteen days after said violation. Such notice as so mailed shall be deemed a sufficient notice, and a certificate of the person so mailing such notice that it has been mailed in accordance with this section shall be prima facie evidence thereof.

At or before the completion of each tour of duty, or at the beginning of the first subsequent tour of duty, the enforcing person shall give to his commanding officer or department head those copies of each notice of such violation he has taken cognizance of during such tour which have not already been delivered or mailed by him as aforesaid. Said commanding officer or department head shall retain and safely preserve one copy and shall, at a time not later than the next court day after such delivery or mailing, deliver the other copy to the clerk of the court before which the offender has been notified to appear. The clerk of court shall maintain separate docket of such notices to appear.

Any person notified to appear before the clerk of a district court as hereinbefore provided may so appear and confess the offense charged, either personally or through a duly authorized agent or by mailing to the Town Clerk together with the notice such sum of money not exceeding

three hundred dollars as the town shall fix as penalty for violation of the ordinance, by-law, rule or regulation. Such payment shall if mailed be made only by postal note, money order or check. Upon receipt of such notice, Town Clerk shall forthwith notify the district court clerk of such payment and the receipt by the district court clerk of such notification shall operate as a final disposition of the case. An appearance under this paragraph shall not be deemed to be a criminal proceeding. No person so notified to appear before the clerk of district court shall be required to report to any probation officer, and no record of the case shall be entered in any probation records.

If any person so notified to appear desires to contest the violation alleged in the notice to appear and also to avail himself of the procedure established pursuant to this section, he may, within twenty-one days after the date of the notice, request a hearing in writing. Such hearing shall be held before a district court judge, clerk, or assistant clerk, as the court shall direct, and if the judge, clerk, or assistant clerk shall, after hearing, find that the violation occurred and that it was committed by the person so notified to appear, the person so notified shall be permitted to dispose of the case by paying the specific sum of money fixed as a penalty as aforesaid, or such lesser amount as the judge, clerk or assistant clerk shall order, which payment shall operate as a final disposition of the case. If the judge, clerk, or assistant clerk shall, after hearing, find that violation alleged did not occur or was not committed by the person notified to appear, that finding shall be entered in the docket, which shall operate as a final disposition of the case. Proceedings held pursuant to this paragraph shall not be deemed to be criminal proceedings. No person disposing of a case by payments of such a penalty shall be required to report to any probation office as a result of such violation, nor shall any record of the case be entered in the probation records.

If any person so notified to appear before the clerk of a district court fails to pay the fine provided hereunder within the time specified or, having appeared, does not confess the offense before the clerk or pay the sum of money fixed as a penalty after a hearing and finding as provided in the preceding paragraph, the clerk shall notify the enforcing person who issued the original notice, who shall determine whether to apply for the issuance of a complaint for the violation of the appropriate ordinance, by-law, rule or regulation.

The enforcing person may upon the commission of a first offense, inform the offender in writing that a violation has occurred and that if the violation recurs or is not rectified within a specific period of time, such financial penalty shall be imposed.

Each such day that a violation continues shall constitute a separate offense. The violation of any by-law or regulation enforced under the provisions of this by-law shall not exceed the sum of \$300 per diem as specified in Mass. Gen. Laws, Chapter 40, Section 21D or as specified in amendments of the said Statute from time to time. If no specific fine has been designated by the by-law section or rule or regulation to which the violation relates, the fine shall be the higher of \$20 per diem or the minimum fine specified by the most recent amendment of Mass. Gen. Laws, Chapter 40, Section 21D. (Amended ATM 4/30/88, Art. 22) (Amended STM 8/28/91, Art. 3)

An abatement procedure shall be established for residents who are uninsurable or unable to pay said fee.

In accordance with Mass. Gen. Laws, Chapter 40, Section 57, the Board of Selectmen, hereinafter referred to as the Board, may revoke or suspend any local license or permit including renewals and transfers issued by the Board for any person, corporation or business enterprise who has neglected or refused to pay any local taxes, fees, assessments, betterments or any other municipal charges, provided that:

Said list shall be prima facie evidence for denial, revocation or suspension of said license or permit to any party. The Tax Collector shall have the right to intervene in any hearing conducted with respect to such license denial, revocation or suspension. Any findings made by the Board with respect to such license denial, revocation or suspension shall be made only for the purposes of such proceeding and shall not be relevant to or introduced in any other proceeding at law, except for any appeal from such license denial, revocation or suspension. Any license or permit denied, suspended or revoked under this section shall not be reissued or renewed until the Board receives a certificate issued by the Tax Collector that the party is in good standing with respect to any and all local taxes, fees, assessments, betterments or other municipal charges, payable to the municipality as the date of issuance of said certificate.

c.) Any party shall be given an opportunity to enter into a payment agreement, thereby allowing the Board to issue a certificate indicating said limitations to the license or permit and the validity of said license shall be conditioned upon the satisfactory compliance with said agreement. Failure to comply with said agreement shall be grounds for the suspension or revocation of said license or permit; provided, however, that the holder be given notice and a hearing as required by applicable provisions of law.

d.) The Board may waive such denial, suspension or revocation if it finds there is no direct or indirect business interest by the property owner, its officers or stockholders, if any, or members of his immediate family, as defined in Mass. 6. Severability. If any provision of this By-law is held to be unconstitutional or otherwise invalid by any court of competent jurisdiction, the remaining provisions of the By-law shall not be invalidated.

SECTION 631: PRIVATE WAYS (Atm, 5/14/07, art.28)

1.01 The Town of Wilbraham may, subject to appropriation therefore in advance at the previous annual town meeting, make temporary repairs to a private way on which there is more than one owner abutting the private way, subject to limitations expressed in the following sections of this by-law, which shall not constitute a rebuilding of the road by replacing the gravel base, binder course and top coat, but which would be limited to patching degraded portions of the asphalt or regrading gravel roads or minimal snow plowing to allow for emergency access by public emergency vehicles and practical access to accommodate public necessity. See Section 1.03 below.

1.02 Drainage improvements shall not be made at the time of the making of such temporary repairs unless necessary to provide access by emergency vehicles to more than one home abutting the private way and then only to the extent to which the temporary repairs are necessary to provide such emergency access by public emergency vehicles and practical access to accommodate public necessity.

1.03 Temporary repairs will not be made unless there is a public necessity for the repairs, and not merely an inconvenience to a property owner on a private way who is either the sole owner abutting the private way or an owner of property adjacent to the private way at the end of the private way, but not abutting the private way. The private ways eligible for temporary repairs under this by-law shall have been in existence prior to August 9, 1946 when the subdivision control law became effective in Wilbraham or shall have been constructed (or in the process of construction) in accordance with a plan approved and endorsed under the subdivision control law. The term "public necessity" shall mean a need by public emergency vehicles including fire, police, and ambulance; or Town snow removal vehicles, school buses, and other vehicles customarily used by delivery services and utility and home appliance service vehicles to access the homes abutting the private way.

1.04 In order for the town to make temporary repairs on a private way, in addition to

the rest of the requirements set forth herein, there must first be a petition for such temporary repairs presented in writing to the town and signed by 51% of the owners abutting the private way.

- 1.05 Neither betterment assessments nor any other fee shall be assessed to owners abutting the private way when temporary repairs are made. However, notwithstanding the petition of 51% of the owners abutting the private way, said owners shall pay to the town a sum of money equal to the amount estimated by the Director of Public Works to be the cost of materials to be used in the temporary repairs including, but not limited to, oil, stone, bituminous asphalt and pipes, said sum of money to be apportioned among said owners as they deem appropriate.
- 1.06 Notwithstanding the petition of 51% of the owners abutting the private way, the town shall not make temporary repairs unless each and every owner abutting the private way shall first execute a document presented by the town which establishes a one hundred (\$100.00) dollar limit of liability of the town on account of damages caused by such repairs.
- 1.07 The town may also offer the owners abutting the private way the opportunity to hire the town's paving contractor if and when the town's paving contractor is performing other work for the Town in the vicinity of the particular private way(s), when such an opportunity would represent the likelihood of a substantial savings to the owners abutting the private way in an instance where more extensive repairs or a complete reconstruction of the road is preferred by the owners abutting the private way. Nothing herein shall be construed to impose a requirement that the town take any such action or create or offer such an opportunity to the owners abutting the private way.
- 1.08 Notwithstanding anything in the foregoing to the contrary, no temporary repairs or other repairs or services, including but not limited to snowplowing as referenced in Section 1.01 above, shall be construed to constitute the acceptance by the town of a private way as a public way or to otherwise convert a private way to a public way.

SECTION 632: UNREGISTERED OR INOPERABLE MOTOR VEHICLES
(ATM 5/14/07, Art. 35)

1. No person in charge or control of any property within the Town, whether as owner, tenant, occupant, lessee or otherwise, shall allow any motor vehicle or trailer which is partially dismantled, wrecked, junked, inoperable or unregistered to be stored, parked or otherwise placed on such property for more than thirty (30) days during any one year period except that this Section shall not apply to:

- A. A motor vehicle stored or parked within a lawfully permitted and totally enclosed building with sidewalls and roof:
- B. An un-garaged motor vehicle stored or parked in a location out of sight from abutting properties and public ways, except that the open air storage of more than

two (2) unregistered or inoperable vehicles is prohibited on any lot where the principal use of such lot is residential in nature. For purposes of this section all contiguous parcels of land in common ownership shall be considered one lot.

- C. A motor vehicle on the premises of a legally established business enterprise operated in a lawful place and manner when necessary to the operation of such business enterprise including, but not limited to, motor vehicles sales, motor vehicle towing operations and motor vehicle repair shops;
- D. Motor vehicles which are used for bona-fide agricultural purposes; and
- E. A motor vehicle stored or parked in an appropriate storage place or depository maintained in a lawful place and manner with the consent of the Town.

2. Any person who continues to violate any provision of this Section 631 of the Town by-laws after seven (7) days following receipt of written notice of such violation from the Zoning Enforcement Officer shall be liable for a penalty not exceeding one hundred (100) dollars for each offense. Each day that any violation continues after said seven (7) day period shall constitute a separate offense. Any violation that is corrected and then recurs within one year following the written notice of the original violation shall be considered a repeat violation subject to an immediate penalty not exceeding two hundred (200) dollars for each offense and each day that the repeat violation continues shall constitute a separate offense.

3. The violation of any provision of this section may be addressed by the procedure for non-criminal disposition as provided in MGL Chapter 40 Section 21D, as incorporated in Section 103A of the By-laws of the Town of Wilbraham.

Citation to by-laws: Wilbraham Town By-laws Section 632
Subject of by-laws: Unregistered motor vehicles

Penalty: \$100 for each offense, each day being a separate offense; \$200 for each repeat offense, each day being a separate offense

SECTION 633: RIGHT TO FARM (ATM 5/14/07, Art. 41)

The Town of Wilbraham hereby adopts a Right to Farm Bylaw, administered by an Agricultural Commission, to promote and preserve farming and farmland within the town. The Agricultural Commission shall perform its duties in cooperation with other relevant town boards, commissions and departments.

Section 1: Purpose and Intent

In the Town of Wilbraham, where farming is an essential part of the town's history, farming continues to be a necessary and desirable activity that provides food, clean air, economic diversity, local employment, and open space to all citizens of our community.

This bylaw is intended to encourage the pursuit of agriculture, promote farm-based economic and employment opportunities, farm-based recreational and leisure activities, and protect farmland within the Town of Wilbraham.

The purpose and intent of this bylaw is to foster agricultural uses of land, and to encourage the initiation and expansion of agriculture and related activities to function in harmony with the citizens of Wilbraham.

Section 4: Policy Statement

“It is the policy of the Town of Wilbraham, a Right to Farm community, to conserve, protect and encourage the maintenance and improvement of agricultural land for the production of food and other agricultural products, and also for its natural, recreational and ecological value.”

(ATM 5/14/07, Art. 43)

PART I LOCAL STORMWATER MANAGEMENT

SECTION A. PURPOSE AND AUTHORITY

1. Purpose

- a. The purpose of this by-law is to better manage land alteration and development in order to protect, maintain, and enhance the public health, safety, and general welfare of the citizens of Wilbraham by establishing minimum requirements and procedures to control the **adverse impacts** associated with **stormwater runoff**. (Bolded words and phrases are defined under the definition section B).
- b. The proper management of stormwater runoff will meet the following objectives:
 1. Reduce the adverse water quality impacts of stormwater discharges to rivers, lakes, reservoirs and streams in order to meet federal water quality standards;
 2. Prevent the discharge of pollutants, including hazardous chemicals, into stormwater runoff;

3. Minimize the volume and rate of storm water, which is discharged to rivers, streams, reservoirs, lakes and storm sewers, that flows from any site during and following development;
4. Prevent erosion and sedimentation from land development, and reduce stream channel erosion caused by increased runoff;
5. Provide for the non-polluted recharge of groundwater aquifers and maintain the base flow of streams;
6. Provide storm water facilities that are attractive, maintain the natural integrity of the environment, and are designed to protect public safety;
7. Maintain or reduce pre-development runoff characteristics after development to the extent feasible;
8. Minimize damage to public and private property from flooding;
9. Ensure that these management controls are properly maintained; and
10. Comply with state and federal statutes and regulations relating to storm water discharges.

2. Authority

This by-law is adopted under the authority granted by the Home Rule Amendment of the Massachusetts Constitution, the Home Rule statutes, and the regulations of the federal Clean Water Act found at Title 33 U.S.C. §§ 1252 1387 and 40 CFR 122.34.

3. Responsibility for Administration

The Town of Wilbraham Department of Public Works (Wilbraham DPW) shall be the Permitting Authority/**Authorized Enforcement Agency** and shall administer, implement and enforce this by-law. SECTION C. APPLICABILITY

1. Prior to the issuance of any Special Permit, Site Plan Approval, Building Permit for any proposed development listed below, a **Local Stormwater Management Permit**, must be approved by the Wilbraham DPW. No **person** shall, on or after the effective date of the by-law, initiate any vegetation clearing, land grading, earth moving or development activities without first complying with this by-law. The following uses and activities shall be regulated under this by-law:

a. Minor Projects: any proposed development **disturbing** an area of less than 43,560 square feet (1 Acre)

b. Major Projects:

(1) Subdivisions and construction activities of any kind **disturbing** an area equal to or greater than 43,560 square feet (1 Acre); and

(2) Development or redevelopment involving multiple separate activities in discontinuous locations or on different schedules if the activities are part of a larger common plan of development that all together disturbs an area equal to or greater than 43,560 square feet (1Acre).

SECTION D. EXEMPTIONS

1. To prevent the adverse impacts of stormwater runoff, the Wilbraham DPW has adopted the MA DEP Stormwater Management Policy as the set of performance standards that must be met at new development sites. These standards apply to construction activities as described under Section C. The following activities are exempt from these stormwater performance standards:

- a. Any agricultural activity which is consistent with an approved soil conservation plan prepared or approved by the **NRCS**;
- b. Any logging which is consistent with a timber management plan already approved under the Forest Cutting Practices Act by the Massachusetts Department of Conservation and Recreation;
- c. Additions or modifications to existing single family structures where there is no proposed change in impervious area;
- d. Any emergency activity that is immediately necessary for the protection of life, property or the environment, as determined by the Wilbraham DPW; and
- e. Work undertaken by the Wilbraham DPW.

SECTION E. PERMIT PROCEDURES AND REQUIREMENTS

1. Approval of Local Stormwater Management Permit Required

No landowner shall receive a building, grading, or other land development permits required, or commence land **disturbance** activities, without approval of the Local Stormwater Management Permit and meeting the requirements of this by-law. Approval by the Wilbraham DPW under this by-law does not exempt the applicant from meeting the requirements of the federal **National Pollutant Discharge Elimination System (NPDES)** program, which requires a Notice of Intent be filed with the EPA and a **Stormwater Pollution Prevention Plan (SWPPP)** be prepared and maintained on site nor does it supersede compliance with the requirements of the Wilbraham Conservation Commission and the Massachusetts Department of Environmental Protection.

2. Application and SWPPP Requirements

a. Minor Projects

Applicants for a Local Stormwater Management Permit for Minor Projects are required to submit the non-refundable permit review fee with the Local Stormwater Management Permit Application and a site plan depicting the following information.

The Wilbraham DPW may promulgate regulations setting forth the elements comprising the amount of and terms and conditions of the bond or other financial security required by this or other sections of this bylaw. Wilbraham DPW may require a SWPPP.

If a project is shown on a plan as part of a larger plan of development that is covered under an existing NPDES (NOI), but is, in actual fact, considered a separate development on a unique lot, as determined by the Wilbraham DPW, then Local Stormwater Management Permit coverage is required for both activities. Section F. STORMWATER MANAGEMENT PERFORMANCE STANDARDS

In addition to other criteria used by the Wilbraham DPW in making permit decisions, for the uses specified in this by-law, the Wilbraham DPW must also find that the Stormwater Pollution Prevention Plan submitted with the permit application meets the following criteria:

1. Minimum Control Standards

Projects must meet the Standards of the Massachusetts Stormwater Management Policy as updated or amended. These Standards are:

- a. No new stormwater conveyances (e.g. **outfalls**) may discharge untreated stormwater directly to or cause erosion in wetlands or water of the Commonwealth.
- b. Stormwater management systems must be designed so that post-development **peak discharge** rates do not exceed pre-development peak discharge rates.
- c. Loss of annual recharge to groundwater should be minimized through the use of infiltration measures to the maximum extent practicable. The annual recharge from the post-development site should approximate the annual recharge rate from the pre-development or existing site conditions, based on soil types.
- d. For new development, stormwater management systems must be designed to remove 80% of the average annual load (post-development conditions) of Total Suspended Solids (TSS). It is presumed that this standard is met when:
 - (1) suitable nonstructural practices for source control and pollution prevention are implemented;
 - (2) stormwater management BMPs are sized to capture the prescribed runoff volume; and
 - (3) stormwater management BMPs are maintained as designed.
- e. Stormwater discharges from areas with higher potential pollutant loads require the use of specific stormwater management BMPs (Stormwater Management Volume I: Stormwater Policy Handbook, as updated or amended). The use of infiltration practices without pretreatment is prohibited.
- f. Stormwater discharges to critical areas must utilize certain stormwater management BMPs approved for critical areas (Stormwater Management Volume I: Stormwater Policy Handbook, as updated or amended). Critical areas are Outstanding Resource Waters (ORWs), shellfish beds, swimming beaches, cold water fisheries and recharge areas for public water supplies.
- g. Redevelopment of previously developed sites must meet the Stormwater Management Standards to the maximum extent practicable. However, if it is not practicable to meet all the Standards, new (retrofitted or expanded) stormwater management systems must be designed to improve existing conditions.
- h. Erosion and sediment controls must be implemented to prevent impacts during disturbance and construction activities.
- i. All stormwater management systems must have an operation and maintenance plan to ensure that systems function as designed.

When the proposed discharge may have an impact upon a sensitive receptor, including streams, storm sewers, and/or combined sewers, the Wilbraham DPW may require an increase in these minimum requirements, based on existing stormwater system capacity.

2. Erosion Control Performance Standards

Projects must address the following design requirements for erosion and sediment control.

- a. Minimize total area of disturbance;
- b. Sequence activities to minimize simultaneous areas of disturbance;
- c. Minimize peak rate of runoff in accordance with the MA Stormwater Management Policy;
- d. Minimize soil erosion and control sedimentation during construction; prevention of erosion is preferred over sedimentation control;
- e. Divert uncontaminated water around disturbed areas;
- f. Maximize groundwater recharge;

- g. Install, and maintain all erosion and sediment control measures in accordance with the manufacturer's specifications and good engineering practices;
- h. Prevent off-site transport of sediment;
- i. Protect and manage on and off-site material storage areas (overburden and stockpiles of dirt, borrow areas, or other areas used solely by the permitted project are considered a part of the project);
- j. Comply with all applicable Federal, State and local laws and regulations, including but not limited to, waste disposal, sanitary sewer or septic system regulations, and air quality requirements, including dust control;
- k. Prevent adverse impact from the proposed activities to habitats mapped by the Massachusetts Natural Heritage & Endangered Species Program as Estimated Habitats of Rare Wildlife and Certified Vernal Pools, and Priority Habitats of Rare Species;
- l. Institute interim and permanent stabilization measures. The stabilization measures shall be instituted on a disturbed area as soon as practicable but no more than 14 days after **construction activity** has temporarily or permanently ceased on that portion of the site;
- m. Properly manage on-site construction and waste materials; and
- n. Prevent off-site vehicle tracking of sediments.

3. Criteria for Review of Local Stormwater Management Permit Applications

The Wilbraham DPW shall review each application to determine its conformance with the provisions of this section. The Wilbraham DPW shall review the permit application and issue a decision within 21 municipal business days after receiving an application. This timeframe may be extended at the sole discretion of the Wilbraham DPW if it requires additional information. Upon completion of the review, the Wilbraham DPW shall issue, in writing:

- 1) The Local Stormwater Management Permit based upon determination that the proposed plan meets the purposes in Section A and the standards in Section F and will adequately protect the water resources of the community and is in compliance with the requirements set forth in this by-law;
- 2) Approval of the Local Stormwater Management Permit subject to any conditions, modifications or restrictions required by the Wilbraham DPW to meet the purposes in Section A and the standards in Section F to adequately protect water resources, set forth in this by-law; and
- 3) Disapproval of the Local Stormwater Management Permit based upon a determination that the proposed plan, as submitted, does not meet the purposes in Section A and the standards in Section F or adequately protect water resources, as set forth in this by-law.

SECTION G. INSPECTIONS

When any new drainage control facility is installed on private property, or when any new connection is made between private property and a public drainage control system or sanitary sewer, the filing of an application shall be deemed as the property owner's permission to the Wilbraham DPW, or their agents for the right to enter the property at reasonable times and in a reasonable manner for the purpose of the inspection. This includes the right to enter a property when the Wilbraham DPW has a reasonable basis to believe that a violation of this by-law is occurring or has occurred, and to enter when necessary for abatement of a public nuisance or correction of a violation of this by-law.

The applicant shall notify the Wilbraham DPW within 48 hours prior to the following activities. At its discretion, the Wilbraham DPW may enter the property to observe these activities:

- a) Installation of erosion and sediment control measures;
- b) Site clearing;
- c) Installation of permanent stormwater structures prior to backfilling of any underground drainage
- d) or stormwater conveyance structures; and
- e) Construction completion: Contractor shall notify Wilbraham DPW in writing when all work, including construction of stormwater management facilities and landscaping, has been completed and the site is stabilized. For all major projects, the NPDES Notice of Termination must also be filed with EPA and a copy provided to the Wilbraham DPW prior to final inspection or issuance of **Certificate of Completion**.

The applicant shall submit an "as-built" plan for the stormwater controls after the final construction is completed. The plan must show the final design specifications of all stormwater management controls and Wilbraham DPW may require the plan be prepared by a professional engineer. The as-built plan shall be submitted digitally in accordance with Wilbraham Engineering Department standards, or a conversion fee shall be required. Wilbraham DPW shall issue a Certificate of Completion once all requirements have been met.

The person responsible for implementation of the plan shall make regular inspections of all control measures in accordance with the inspection schedule outlined in the approved SWPPP. The purpose of such inspections shall be to determine the overall effectiveness of the control plan and the need for additional control measures. All inspections shall be documented in written form, maintained on site, and made available at the Wilbraham DPW's request. Such records shall be maintained by the applicant for at least 3 years from the day of final inspection.

Amendments must be in writing and signed by all Responsible Parties. Responsible Parties must include owner(s), persons with financial responsibility, and persons with operational responsibility.

b) The agreement shall also provide that, if satisfactory corrections are not made by the owner(s) within thirty days of notice by the Wilbraham DPW, or designated representative, to correct a violation requiring maintenance work, the Town may perform or contract all necessary work to place the facility in proper working condition. The owner(s) of the facility shall be assessed the cost of the work and any penalties. If the costs are not paid, the Town may place a lien on the property or use available secured funds from bond provided.

3. Stop Work Orders

Persons receiving a notice of violations will be required to halt all construction activities. This “stop work order” will be in effect until the Town confirms that the development activity is in compliance and the violation has been satisfactorily addressed. Failure to address a notice of violation in a timely manner can result in civil, criminal, or monetary penalties in accordance with the enforcement measures authorized in this by-law.

4. Non-Criminal Disposition

As an alternative to criminal prosecution or civil action, the Town of Wilbraham may elect to utilize the non-criminal disposition procedure set forth in the non-criminal disposition procedure in M.G.L. Chapter 40, §21D or in the Town of Wilbraham General By-laws § 103A. The Wilbraham DPW shall be the enforcing entity. The penalty shall be three hundred (\$300.00) dollars per day. Each day or part thereof that such violation occurs or continues shall constitute a separate offense. If action is not taken by the property owner within seven days, this shall become a civil or criminal penalty.

2. Notification of Spills

Any spills or releases that require notification under local, state or federal law will be the responsibility of the person responsible for a facility or operation, or for an emergency response for a facility or operation (e.g., construction). In the event of a spill or release which may result in a discharge of pollutants or non-stormwater discharge to the municipal storm drain system, waters of the United States, and/or waters of the Commonwealth, the responsible parties, potentially responsible parties, or any person or persons managing a site or facility shall take all necessary steps to ensure containment, and remediate any municipal storm drains that have been impacted. If the discharge of prohibited materials is from a commercial or industrial facility, the facility owner or operator of the facility shall take all necessary steps to ensure containment, clean-up of the release, retain on-site a written record of the discharge, and the actions taken to prevent its recurrence. Such records shall be retained for at least three years.

a. **Civil Relief** – If a person violates the provisions of this by-law, regulations, permit, notice, or order issued thereunder, the DPW may seek injunctive relief in a court of competent jurisdiction restraining the person from activities which would create further violations or compelling the person to perform abatement or remediation of the violation.

Said order shall further advise that, should the violator or property owner fail to abate or perform remediation within the specified deadline, the Town of Wilbraham may, at its option, undertake such work, and expenses, trebled, shall be charged to the violator.

- I.  - a. **Entry to Perform Duties under this By-Law** – To the extent permitted by state law, or if authorized by the owner or other party in control of the property, the Wilbraham DPW, its agents, officers, and employees may enter upon privately owned property for the purpose of performing their duties under this by-law and may make or cause to be made such examinations, surveys or sampling as the DPW deems reasonably necessary.
